MY SKILLS

Languages :

- French : first language
- English : B1 level

Hard Skills :

HTML

CSS

JavaScript

PHP

Swift

SwiftUI

Python

MySQL

Git

Soft Skills :

- Curiosity
- Taking a step back
- Perseverance

Weakness :

- Difficulty to ask for help

Currently in research at the 3W Academy, I am a young web developer aged of 19 years old passionate by developement and the creation of innovating solutions. I am determined to gain skills both in front-end and back-end in order to become an experienced full-stack developer.

With a view evolving in this field, I plan to complete the "Formation Développeur Full-Stack en alternance" which takes place over 12 months and delivers a second-year university level diploma with the RNCP title.

The training is entitled to monetary compensation up to 5000€ + Agefiph compensation of 4000€.

TRAININGS

★ FULL STACK DEV : FSD56B WITH THE 3WA (09/2024 TO 12/2024)

- Rediscover web integration by using the following languages : HTML, CSS and JS
- Discover two tools used in full stack dev. : REACT (front-end JS library) and Node.js (environment allowing you to execute JS code in back-end)

★ BOOSTER : LIVE100 WITH THE 3W ACADEMY (JULY TO SEPTEMBER 2024)

- Learn web integration by using 4 web development languages : HTML, CSS, JavaScript and PHP
- Discover differents tools used in full stack development : Bootstrap (library), Vue.js (framework), MySQL (database management), ERD (entity relationship diagram), OOP and MVC architecture (Model View Controller)

★ APPLE FOUNDATION PROGRAM WITH SIMPLON.CO (02/2024 TO 03/2024)

- Design a mobile application based on an issue
- Develop an iOS mobile application
- Develop transversal skills that strengthen employability

EXPERIENCES
