Currently in training at the AFEC school, I am a young web developer passionated by developement and the creation of innovating solutions. I am determined to gain new skills both in front-end and back-end to become a professional full stack developer.

Hard skills :

HTML · CSS · JavaScript · Python · MySQL · Ruby

SwiftUI · Git · PHP · Node.js · React · Vue.js

TRAININGS :

✦ PT : WEB DEVELOPER AT THE AFEC SCHOOL (03/2025 TO 02/2026)

- Work on the front-end side with the following languages : HTML, CSS and JS
- Work on the back-end side with the following languages : PHP and MySQL

✦ FULL STACK DEV : FSD56B AT THE 3WA (09/2024 TO 12/2024)

- Work on web integration
- Discover two tools used in full stack dev. : REACT (front-end JS library) and Node.js (environment allowing you to execute JS code in back-end)

✦ BOOSTER : LIVE100 AT THE 3W ACADEMY (JULY TO SEPTEMBER 2024)

- Learn web integration with HTML, CSS, JavaScript and PHP
- Work with differents tools used in full stack development : Bootstrap (library), Vue.js (framework), MySQL (database management), ERD (entity relationship diagram), OOP and MVC architecture (Model View Controller)

✦ APPLE FOUNDATION PROGRAM AT SIMPLON.CO (02/2024 TO 03/2024)

- Design a mobile application based on an issue
- Develop an iOS mobile application
- Develop transversal skills that strengthen employability

EXPERIENCES :

✦ DISCOVERY INTERNSHIP AT ADA TECH SCHOOL (NOVEMBER 2023)

- Discover HTML, CSS and Visual Studio Code
- Discover the typical day of a web developer

✦ IMMERSION INTERNSHIP AT A&G SIGNALÉTIQUE (APRIL 2022)

- Flocking and sanding (a surface)
- Creation of a digital model on Adobe Illustrator
